

Walking & Cycling in St Ives

Better walking - parish

ST. IVES WALKING AND CYCLING GROUP

4

improving wider parish walking

across the wider parish we have highlighted some possible improvements - suggested allocating some Quiet Lanes (where walking, cycling and horse riders have priority), adding crossings to help get across busier traffic routes and connect strategic paths, walks to school etc, improving some junctions to walk across. We have also suggested some public footpath connections, following the routes of old tracks and connecting open access land.

what do you think?

Potential walking hierarchies

- Prestige Walking streets and lanes
- Primary Walking street and lanes
- new parallel pedestrian and cycle crossing with traffic calming
- new uncontrolled pedestrian crossing with traffic calming
- existing footpaths
- local facilities
- potential new footpath - subject to landowner agreement
- new Quiet Lane
- Bay2Bay multi-use trail (by others)

NOTE: other public rights of way in the parish are excluded from the plan for clarity
